

Summary

TOP PERFORMERS

Whoa! You've got 8 cards that scored a DEGREE 10! And, 6 cards made it to DEGREE 9. That's 14 cards above DEGREE 8. Impressive! Your cards' surface and centering are top-notch. Keep those cards coming!

FOCUS AREAS

Spot-on submissions! Some cards fell short due to minor surface imperfections and corner dings. Invest in a good LED light to spot these easier. Also, keep an eye on centering, even borders are key! Let's shoot for more 10s next time!

Keep Up the Great Work!

Hey there, Card Connoisseur! You're on a roll with those dazzling DEGREE 10s and dazzling 9s. Just keep an eye on those pesky imperfections and centering, then it's all smooth sailing to top-grade town. Keep 'em coming! Bloop out!

ORDER #00028297

Grading Analysis

by bloop

Hello there, Robert!

Bloop is thrilled to guide you through your grading results. Let's dive into the highlights and learn how to maximize your next submission.

GENERAL PRE-SUBMISSION TIPS

Surface: Use a high-powered LED light to carefully inspect for fingerprints, smudges, scratches, print lines, or any damage that may affect the overall eye appeal

Corners & Edges: Check for any dings, fraying, whitening or any other damage that sticks out. Any damage that noticeably affects eye appeal can affect the grade of your card.

Centering: Compare margins to ensure evenness using a centering tool or reference cards. Cards that are visibly off-center may be outside of the allowed 56/44 margins.

Creases/Dents: Inspect your card and see if there are any significant dents or creases. Any card that is found to have a crease or dent will be significantly penalized.
